1 - ATEX CONFORMITY

1.1 - The ATEX Directive and related harmonized standards define the minimum safety requirements for equipment intended for potentially explosive use.

The areas in which the pumps can be used are assigned in relation to the safety devices used , and then to the level of explosion protection adopted.

1.2 – Our pumps are certified to work in presence of potentially explosive atmospheres according to the category II.2 and II.3.

1.3 Definition and classification of the areas identified by ATEX in which our pumps can be used:

Group	II Other areas with potentially explosive atmospheres	
Equipment category	2	3
Zones and type of explosive atmosphere	1 (G) - 21 (D)	2 (G) - 22 (D)
Surface temperature of the equipment	T4 / T135 ° C
